

PROGRAM

SYMPOSIUM

NOVEL REGENERATIVE CONCEPTS FOR DENTISTRY

19-20 APRIL 2024

HOTEL EUROSTARS SITGES (BARCELONA), SPAIN

BE PART OF THE HYALURONIC ACID EXPERT GROUP

Anton Sculean
Chairman

Andrea Pilloni

Stefan Fickl

Anton Friedmann

Darko Božić

THURSDAY, 18 APRIL, 19:00

Welcome dinner (Tapas & Flamenco)

EVENT SCHEDULE

FRIDAY, 19 APRIL

SYMPOSIUM
**HYALURONIC
ACID IN DENTAL
SURGERY** 19-20 APRIL 2024

HOTEL EUROSTARS SITGES (BARCELONA), SPAIN

PLENARY SESSIONS

08:45	Welcome – Anton Sculean
09:00	Non-surgical treatment for periodontitis/periimplantitis. State-of-the-art and novel concepts. Anton Friedmann, Andreas Stavropoulos
09:50	Discussion
10:00	Break
10:30	Regenerative and esthetic periodontal surgery. State-of-the-art and novel concepts. Andrea Piloni, Darko Božić
11:20	Guided Bone Regeneration treatment. State-of-the-art and novel concepts. Stefan Fickl, Frederic Kauffmann
12:05	Discussion
12:30	Lunch

EXCLUSIVE – All sessions recordings will be translated (DE, IT) and made available exclusively to the participants of the symposium.

ROUND TABLE

SELECTIVE LECTURES

Max. 30 seats per session

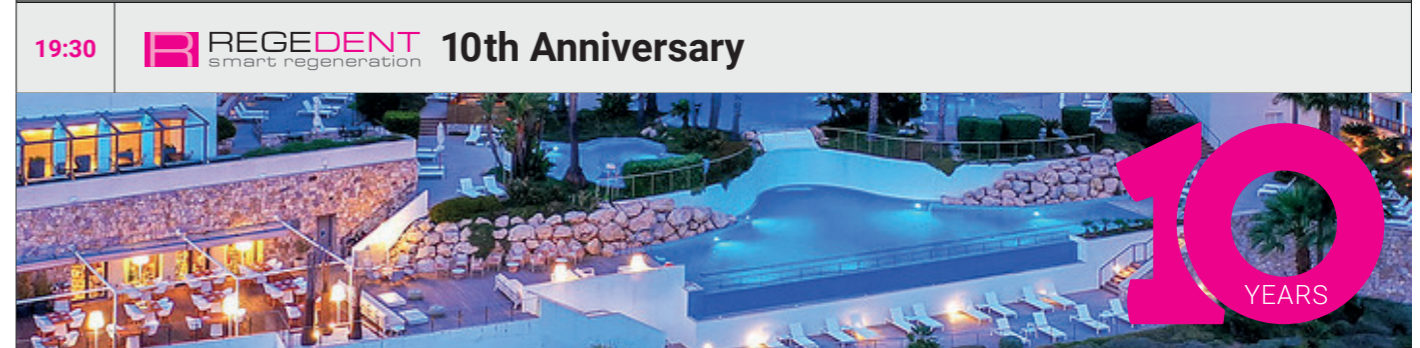

13:30 – 14:00	Successful treatment of periodontal defects in the era of biologics Kristina Bertl, Holger Jentsch	Hybrid regeneration of severe atrophies Georges Khoury	Hyaluronic acid in regenerative periodontal therapy Andrea Piloni, Mario Aimetti	Non-surgical treatment for peri-implantitis Vincenzo Iorio-Siciliano, Péter Windisch	Dental implants in patients under bisphosphonate and antiresorptive therapy Paolo Vescovi	Clinical approach in GBR: transition from autogenous bone to 100% xenograft Darko Božić	Bioactivation of xenograft: A link between biology and clinical workflow Bachar Hussein	Latest development and keys to success in Guided Bone Regeneration Stefano Parma Benfenati
14:05 – 14:35	Successful treatment of periodontal defects in the era of biologics Kristina Bertl, Holger Jentsch	Hybrid regeneration of severe atrophies Georges Khoury	Hyaluronic acid properties in dental treatments (potential and limitations) Andrea Piloni	Non-surgical treatment for peri-implantitis Vincenzo Iorio-Siciliano, Péter Windisch	Dental implants in patients under bisphosphonate and antiresorptive therapy Paolo Vescovi	Clinical approach in GBR: transition from autogenous bone to 100% xenograft Darko Božić	Bioactivation of xenograft: A link between biology and clinical workflow Bachar Hussein	Latest development and keys to success in Guided Bone Regeneration Stefano Parma Benfenati

14:35 Break

HANDS-ON

15:00 – 17:30	Novel surgical concept for periimplantitis and periodontitis Andreas Stavropoulos	Minimize surgical needs for peri-implantitis/periodontitis Anton Friedmann	Optimisation of GBR with xenograft and hyaluronic acid Darko Božić	Innovative approaches in the management of periodontal and peri-implant infections and soft tissue reconstructions Anton Sculean	Guided Bone Regeneration – clinically relevant tips and tricks Stefan Fickl, Frederic Kauffmann	Latest resorbable dome device in GBR Stefano Parma Benfenati
---------------------	---	--	--	--	---	--

CELEBRATION

19:30 **REGEDENT 10th Anniversary**

Prof Mario Aimetti Dr Kristina Maria Bertl Prof Darko Božić Prof Stefan Fickl Prof Anton Friedmann Dr Bachar Hussein
 Prof Vincenzo Iorio-Siciliano Prof Holger Jentsch Dr Frederic Kauffmann Dr Georges Khoury Dr Stefano Parma Benfenati Prof Andrea Piloni
 Prof Anton Sculean Prof Andreas Stavropoulos Prof Paolo Vescovi Prof Péter Windisch

EVENT SCHEDULE
SATURDAY, 20 APRIL

ROUND TABLE		SELECTIVE LECTURES <i>Max. 30 seats per session</i>					
09:00 – 09:30	Potential and limit of hyaluronic acid in periimplantitis Andreas Stavropoulos	Management of bone and soft tissue in post-extraction implants in esthetic sites Marco Finotti	Hyaluronic acid: biologic background and histologic evidence Yoshinori Shirakata, Anton Sculean	How to minimize surgeries for periodontal / peri-implant infections Anton Friedmann	Soft tissue augmentation around teeth and implants Martino & Alfonso Baruffaldi	Ridge preservation revisited: which concepts work and which not? Danijel Domic	Clinical advantages in routine use of hyaluronic acid for GBR procedures Daniele De Santis
09:35 – 10:05	Potential and limit of hyaluronic acid in periimplantitis Andreas Stavropoulos	Management of bone and soft tissue in post-extraction implants in esthetic sites Marco Finotti	Hyaluronic acid: biologic background and histologic evidence Yoshinori Shirakata, Anton Sculean	How to minimize surgeries for periodontal / peri-implant infections Anton Friedmann	Soft tissue augmentation around teeth and implants Martino & Alfonso Baruffaldi	Ridge preservation revisited: which concepts work and which not? Danijel Domic	Clinical advantages in routine use of hyaluronic acid for GBR procedures Daniele De Santis
10:05	Break						
10:30 – 11:00	Communication and individual prophylaxis: Keys to success Matthias Rzeznik	Bone augmentation techniques for highly atrophic crests Jochen Tunkel	CLEAN&SEAL® – biologic background and clinical evidence Eglè Ramanauskaitė	Hyaluronic acid in different indications including patients with diabetes and osteonecrosis. Meizi Eliezer	Battle of concepts: PRF vs. HyA in Guided Bone Regeneration Fabian Duttenhöfer vs. Kai Fischer	Concepts to improve predictability of implants and augmentations in periodontally compromised patients Alexander Müller-Busch	Impact of cross-linked hyaluronic acid on CTG donor's site: split mouth cases Pier Paolo Poli
11:05 – 11:35	Communication and individual prophylaxis: Keys to success Matthias Rzeznik	Bone augmentation techniques for highly atrophic crests Jochen Tunkel	CLEAN&SEAL® – biologic background and clinical evidence Eglè Ramanauskaitė	Hyaluronic acid in different indications including patients with diabetes and osteonecrosis. Meizi Eliezer	Battle of concepts: PRF vs. HyA in Guided Bone Regeneration Fabian Duttenhöfer vs. Kai Fischer	Concepts to improve predictability of implants and augmentations in periodontally compromised patients Alexander Müller-Busch	Impact of cross-linked hyaluronic acid on CTG donor's site: split mouth cases Pier Paolo Poli
11:45	Discussion and conclusions – Anton Sculean, Andrea Pilloni, Stefan Fickl, Anton Friedmann						
12:45	Lunch						

HANDS-ON					
14:00 – 16:30	Flap designs for predictable mgt of infrabony and furcation defects Andrea Pilloni	Bone shell technique – are allogeneic plates an alternative to the autologous gold standard? Jochen Tunkel	Tooth transplantation and HyA: a comprehensive workshop Giles de Quincey	Predictable concepts for treatment of periodontal and periimplant infections Eglè Ramanauskaitė, Vincenzo Iorio-Siciliano	Surgical management of periimplantitis Andreas Stavropoulos

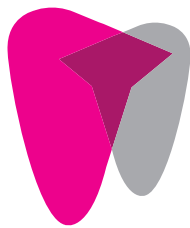

Scientific & Clinical Update	
Thu – Welcome tapas & drinks Fri – Lectures / round tables Fri – Celebration evening Sat – Lectures / round tables	
Normal	590 € 500 € <i>Early birds* pricing, excl. travel, VAT.</i>
IAP Members, Hygienists	540 € 450 € <i>Early birds* pricing, excl. travel, VAT.</i>
Assistants, Students	450 € 350 € <i>Early birds* pricing, excl. travel, VAT.</i>

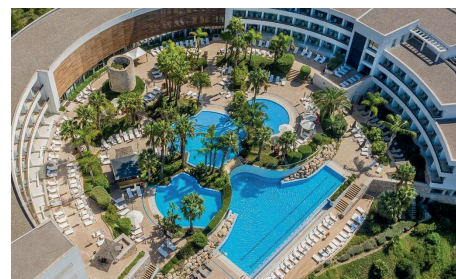

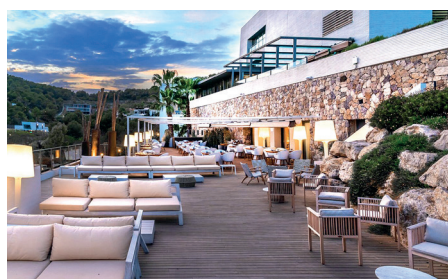

Workshops	
Normal & IAP Members	+ 90 € <i>per workshop (max. 25 participants/workshop)</i>
Assistants, Students	+ 45 € <i>per workshop (max. 25 participants/workshop)</i>

Spouse & Partner	
+ 250 € <i>Lunches, Dinners, Celebration excl. Hotel</i>
